

**NATIONAL FORUM**  
FOR THE ENHANCEMENT OF TEACHING  
AND LEARNING IN HIGHER EDUCATION

## Consultation 2018

24th October – 30th November

# Have Your Say

The National Forum is currently developing its strategy to the end of 2021. This strategy will inform teaching and learning policy and practice in the years to come. This means, if you are reading this, it is likely to impact directly upon your work or studies.

The strategy will focus on four key areas:

- The professional development of those who teach
- Teaching and learning within disciplines
- Teaching and learning in a digital world
- Enabling Student success

It is crucial that our strategy is informed by those who learn, teach, lead, develop policy or shape practice in Irish higher education.

**We invite you to help us decide how best to focus our resources and attention within these key areas.**

To respond, go to

## Informing | Connecting | Supporting | Enhancing

**The National Forum is Ireland's advisory body for teaching and learning in higher education.**

Our vision is a valued and informed teaching and learning culture in Irish higher education characterised by innovation, inclusivity and collaboration which maximises the learning impact for students.
